

Bike/Pedestrian Path

Laketon Township has recently been receiving quite a few questions about a proposed bike path. The article below is from the 2008 Fall Newsletter that was mailed out to the entire township. Township Newsletters are also posted on the website (www.laketon.org) under General Information. For more information, please contact a Laketon Township Board Member, their contact information is also on the website. Thank you.

Pedestrian Path Update – from 2008 Fall Newsletter

The Township Board authorized it's engineers to proceed with the design of a pedestrian path along the current construction route.

The plan is to have a path from Witham Dr and Dykstra Rd to Horton Rd, then south to Fenner Rd, and along Fenner Rd to Bear Lake Rd. From there south along Bear Lake Rd on the west side to Pennsylvania Ave then west on Pennsylvania Ave to Memorial Dr then Memorial Dr west to Weber Rd.

The extent to which this is completed, will depend upon the funding available at the end of the construction project.
